Comm. Hamilton presented the agenda item Discussion of the Ordinance for Cross-Connection Control and need for Cross Connection Control Surveys. Comm. Hamilton said the reasoning behind this ordinance is that it prevents contaminated water from non-potable sources i.e. boiler from backing up into the village water system. The Village will not be able to do the testing, it must be done by someone licensed from the state. Surveys will be sent out to residents/businesses in the Village to see who will need to comply. The system will need to be inspected annually.
